Galvanometer vs Ammeter vs Voltmeter

Galvanometer

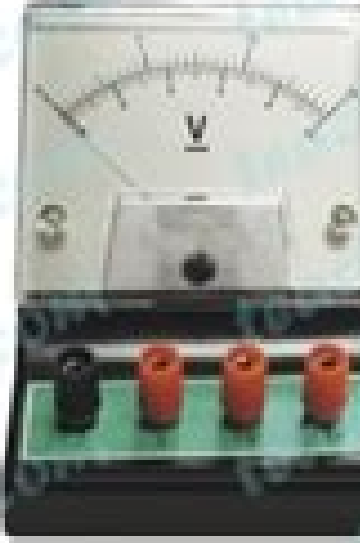

Ammeter

Voltmeter

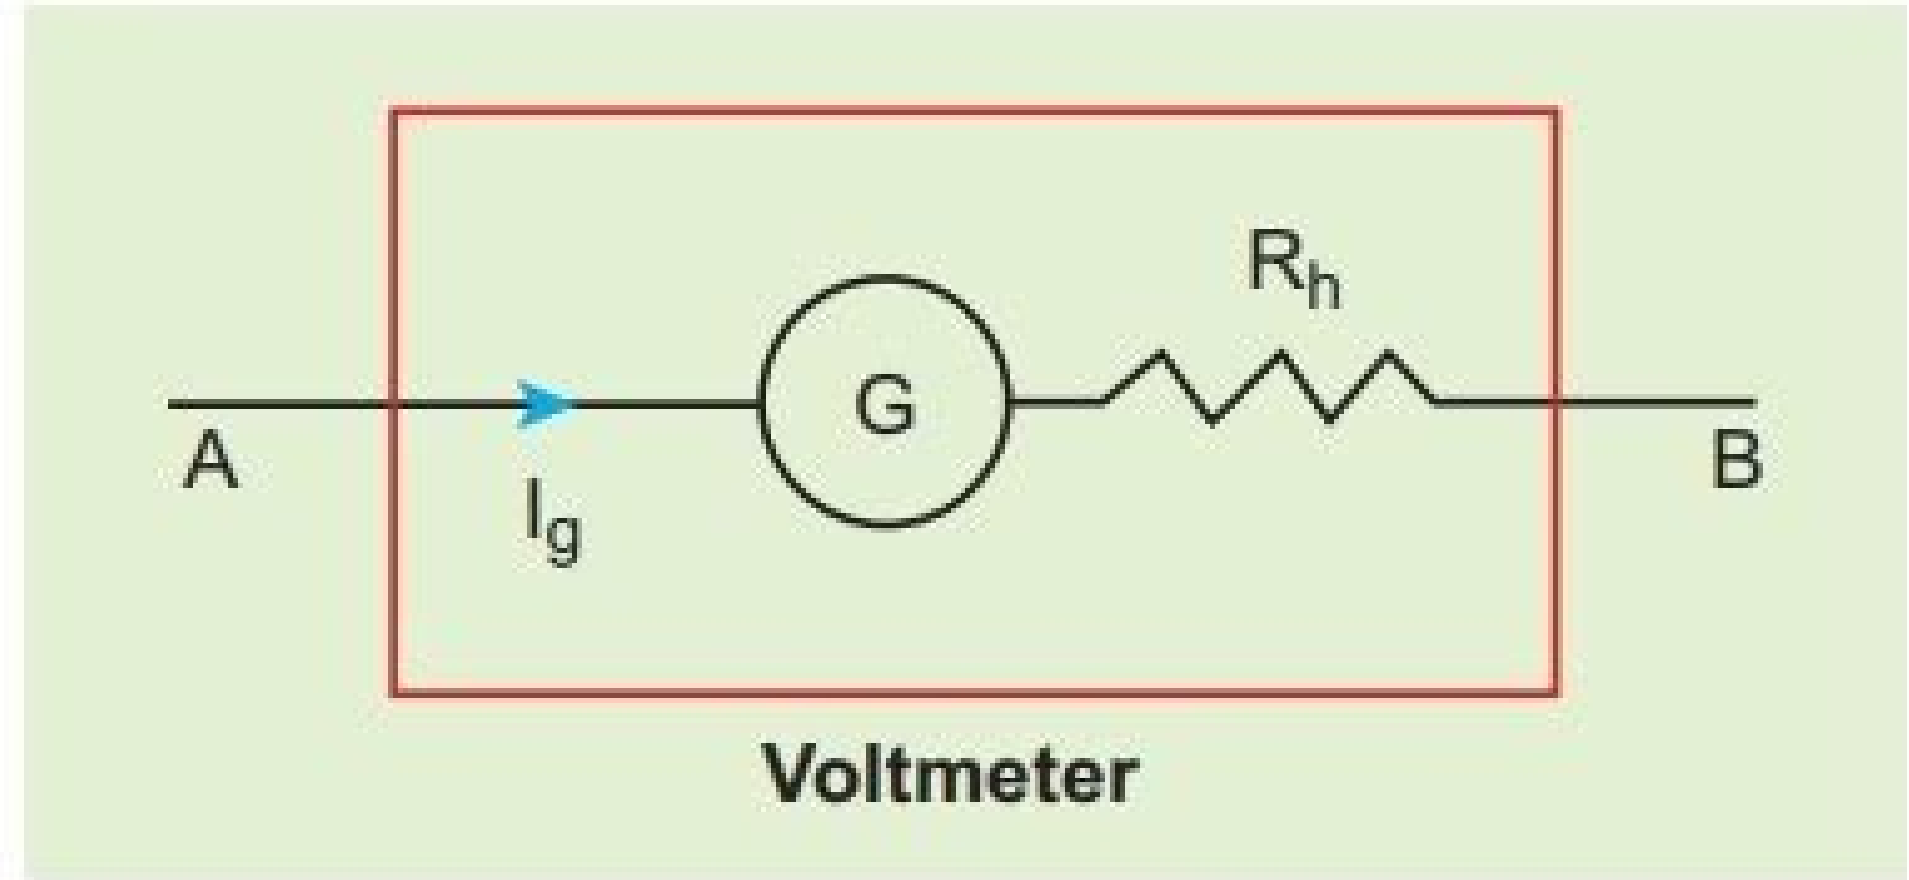

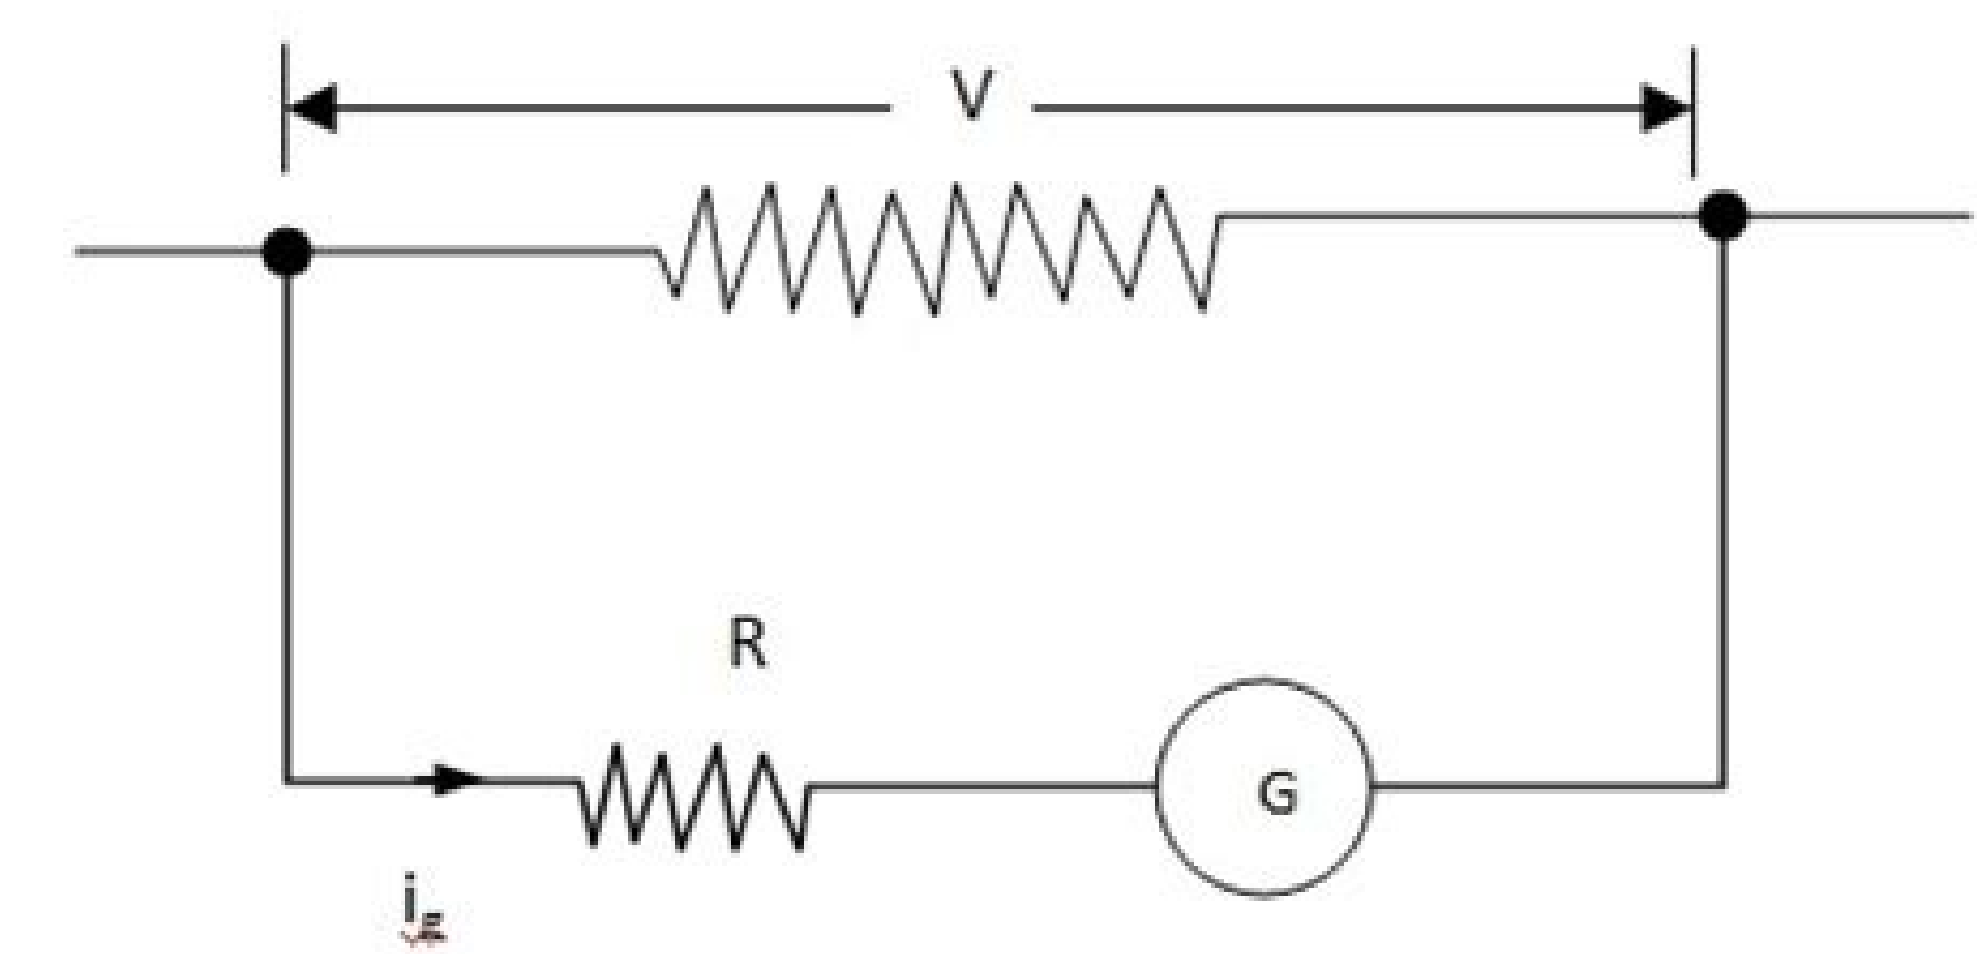

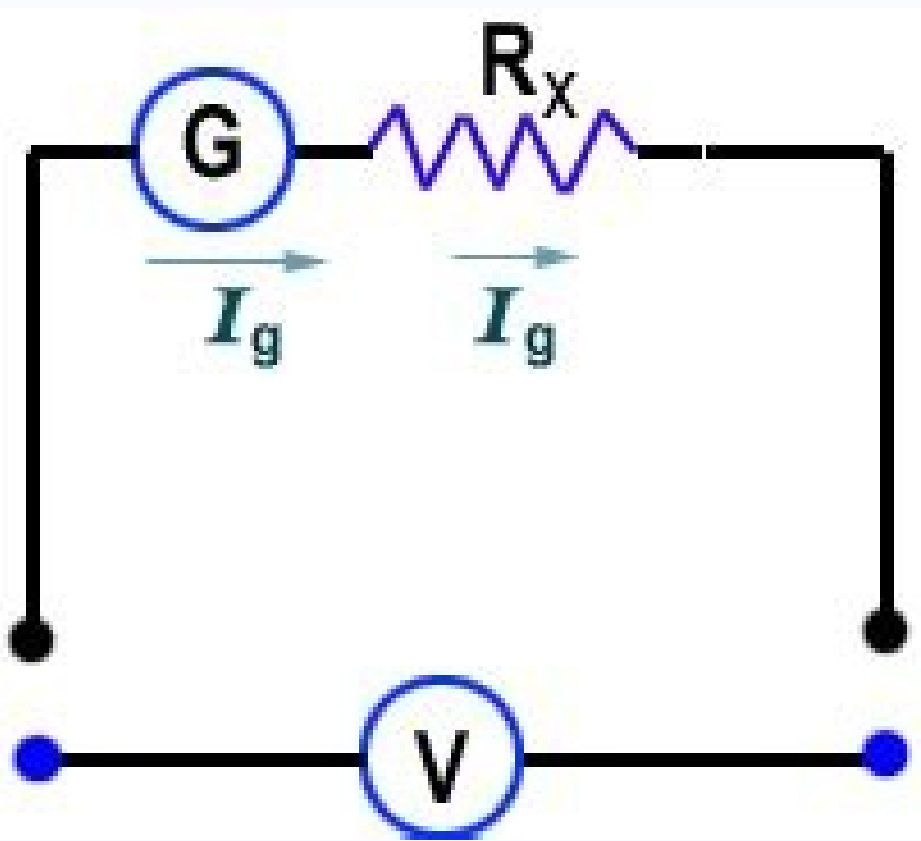

Figure 3.70 Shunt resistance connected in series

If you are 12th class students who are looking for Physics Projects for Class 12? If yes, then you are at the right place. Here in this post, we have provided a list of physics project topics for class 12. Because of this students can select the best investigatory project in physics for class 12. Best Physics Projects for Class 12 CBSE Students Physics is one of the most popular branches of science that deals with the properties of matter and energy, structure of matter. The main subject matter of physics includes heat, light, mechanics, and other radiation, the structure of atoms, sound, magnetism, electricity. This list of physics projects for class 12 on electromagnetic induction, capacitor, optics, magnetism, current electricity, electrostatics, transistor, etc. With the help of this list of topics, students can use to select these topics for Physics Project, Physics Seminars, and Physics Presentation Topics. Latest Physics Projects for Class 12 CBSE Students Let's look at this list of Project for Physics Class 12 Students. Do share it with your friends. Physics Projects on Electromagnetic Induction and Alternating Currents Below is the list of Physics Projects on Electromagnetic Induction and Alternating Currents: To Study the Concept of the Self-Inductance of a Coil To Study the Concept of Full Wave Bridge Rectifier To Study of the Concept Self-Designed Transformer To Study and Measure the Magnitude of the AC Current To Study the AC To DC Converter (Full Wave Rectifier) To Study the Electromagnetic Induction in AC Generator To Investigate the Relation Between Input and Output Voltage To Study the Tangent Galvanometer: Physics Project Class 12 To Study, the Various Factor Affecting the Internal resistance or EMF Bridge Rectifier- a Circuit Using Four Diodes To Provide Full Wave Rectification Converts an AC Voltage To a Pulsating DC Voltage Physics Projects on Current Electricity Below is the list of Physics Projects on Current Electricity: To Study the Ohm's Law and Resistance To Determine the Time Constant for an RC Circuit To Study the Concept of Variation of Electrical Resistance To Study the Wireless Energy: The Future of the Electricity To Study and Find the new Electricity Generating Techniques To Study the Series and Parallel Combinations of the Resistors To Study of the Wheatstone Bridge Circuit Working and its Application To Study Variation of Current Using an LDR: - Physics Projects for Class 12 To Study the Various Temperature effects on the Resistivity of Insulators To Investigate the Effect of The Following Factors On the Internal Resistance of a Laclanche Cell Physics Projects on Electrostatics Below is the list of Physics Projects on Electrostatics: To Study The Charge And Discharging of Capacitor In Series To Study and Construct a Circuit of Capacitor Storage LED To Study and Construct a Circuit of Capacitor Charge Oscillator To Study the Electric Dipole Moment: Physics Project Topics To Study Coulomb's law of-forces between the two-point To Study the Electric Field and the Superposition Principle To Study the Torque on the dipole in a uniform electric field To Study the Dielectric Materials for the Advanced Applications To Demonstrate The Working of An Electrolytic Capacitor By Means of Its Charging And Discharging With the Help of an Audio Oscillator: project for physics class 12 To Study and Compare the Two Capacitors Under Series and Parallel Combination Physics Projects on Magnetic Effects of Current and Magnetism Below is the list of Physics Projects on Magnetic Effects of Current and Magnetism: To Study the Effect of Magnetic Field and Applied Voltage To Study of the Bar Magnet as an Equivalent Solenoid To Study the use of the Magnetic Levitation for an Elevator To Study the Magnetic Force on the Current-Carrying Conductor Physics Investigatory Project on the Moving Coil Galvanometer Conversion of Galvanometer to Voltmeter Physics Experiment To Study, the Torque experienced by a current loop in a uniform magnetic field To Study of the Magnetic Properties of Materials: physics projects for 12th class To Conduct the experiment of Magnetic Field Lines around Current-Carrying Conductor To Study the Magnetics Force between the two parallel current-carrying conductors Physics Projects on Optics Below is the list of Physics Projects on Optics: How Does Distance Affect the Intensity of Light Study of the Effect of the Curvature of Space-time Study and analysis of Changing the Speed of Light Are there more Cosmic Radiation at Higher Altitude To Study the Concept of Reflection in the Concave Mirror To Study the Cosmic Ray shower Array Reconstruction To Study the Refraction of Light in Rectangular Glass Slab To Study and Observations of the Gas in the Infrared Spectrum To Demonstrate the Phenomenon of Total Internal Reflection To Find Out Optical Activity Arises When The Polarization Axis of Light Is Rotated As It Passes Through a Substance: Physics Projects for Class 12 Ray Optics to find Refractive Index of the material of the Prism By Total Internal Refraction Physics Projects on Oscillations and Waves Below is the list of Physics Projects on Oscillations and Waves: To Study the Laws of Reflection of Sounds To Measure the Temperature by Using Sound To Study and Determination the Density of Solids To Measure the Speed of Sound at Room Temperature To Study the Doppler Effect and the Fiber Gyroscope To Measure the Speed of Sound at Room Temperature To Study and Testing the Sound Decay in Different Gases To Study the Nonlinear Oscillations in the Mechanical Systems Study and Analysis of Voice Frequency across Ethnic Identifies To Study the Difference Between the Longitudinal Waves and Transverse Waves Physics Project Topics on Properties of Solids and Liquids Below is the list of Physics Projects on Properties of Solids and Liquids: To Study, the Raft Powered by Surface Tension To Calculate the Specific Heat Capacity of Water To Study of the Creating Sound by using the Heat To Study the Coefficient of the Restitution of Elastic Solids To Study and Analyse the Diffusion of Solids in the Liquids To Study the Viscosity of Fluids: physics project class 12th Modern Physics Topics for Project Below is the list of Modern Physics Project Topics: To Study the Photoelectric Effect: Modern Physics To Study the Bohr's Atomic Model with the assumptions and Limitations To Study the Henry Moseley's Law and Applications of the Moseley Law To Study the de Broglie Wavelength of Matter Waves Concept and Issues To Study the Concept of Radioactivity and its types in Modern Physics General Physics Projects Below is the list of General Physics Projects Topics: To Study and Conduct a Portable Mobile Charger To Study the Pascal's Law And Its Applications To Study and Construct a Circuit of Clap Switch To Study of Constituents Contains in Alloys A New Perspective with a Digital Pinhole To Study the Parallelogram Law of Vectors To Construct a Simple Circuit for Touch Alarm Study the Radioactivity and Nuclear Reaction To Study the Electrochemical Cell (Primary Cell) Study the Solar Cells: Physics Projects for Class 12 To Construct A Circuit of Two Transistor Oscillator To Study the Effect of Pressure on the Water Velocity Charge Induced on Two Identical Styro Foam Balls To Study the Zero Gravity Elevator Physics Experiment To Study and Construct a Portable Mobile Charger To Light and LED Lamp Using a Thermistor To Study the Verification of the Archimedes Principle To Study the Liquid Lens: Interesting physics topics To Study the Effect of Height on Running Cadence To Show the Unidirectional Action of the Diode To Study the Voltage Regulator Using Zenor Diode The Velocity of Pulse Propagated through a Slinky Pressure Exerted by a Solid Iron Cuboid on the Sand Determining the Types of Particle Present in Air Sample To Study the Photo Resistor: project for physics class 12 To Study the Effect of the Pressure in Ball Bounce Height To Study the Transformation Energy from the Deep To Study the Effect of Pressure on Ball Bounce Height To Study and Analysis of Black Hole Thermodynamics To Study the Effect of Rotational Inertia on a Fastball Radioactive Attenuation and the Inverse Square Law Proving Universal Gravitation by Warping Spacetime To Study the Effect of Tension on the Pitch of a string To Study the Energy Conservation in Two Dimensions Study the Laser Security System: physics project class 12 Refractive Index of Different Liquids Using Hollow Prism To Study the Solar Power Grill from Recycled Carton Box To Study the Photometric Study of Eclipsing Binary Stars To Make NOR Gate With the Combination of the two Gates To Study Faraday's Laws To Find The Charge On An Electron To Determine the Refractive Indices of Water and Turpentine Oil Force Required to move a Wooden Block on a Horizontal Table To Study How a Transistor Amplifier Work PNP Amplifier Transistor To Construct a Circuit of Electronic Eye: topics for physics project for class 12 To Study and perform Simple Harmonic Motion of a Spring Experiment To Study the Effect of Temperature on the Elasticity of a Rubber Band To Study the Frequency Relationship of Notes In Musical Harmony To Study the Effectiveness of Recycled Materials as Thermal Insulation To See That Water Conducts Electricity Better When Impurities are Added It The Effect of Temperature on Disposable and Non Disposable Batteries To Study a Positive Feed Back Circuit of an Audio Oscillator (LC Oscillator) To Study the Effect of Temperature On Disposable and Non-Disposable Batteries To Find Out the Thermal Coefficient of Resistance for a Divan Set of Wires and Thus Suggest the Wire In Which Energy Loss Due To Heat Generation Is Minimum: physics project of class 12 To Study, the Effect Of The Diameter and The Number of Turns of The Spring On Its Strength has been Investigation In this Study Final Words I hope that you all like the above list of physics projects for class 12 CBSE Students. With the help of these physics project topics for class 12 CBSE students can choose easily select the best project in physics for class 12. Also, if you need some more topics for the physics project for class 12 please comments below so that I can provide more class 12th physics project topics. Also Read:
